Celebration of World Earth Day

World earth day was celebrated today on 22-04-2024 by the Department of Botany in collaboration with IQAC cell of the college to sensitize the students about the global environmental problems and the necessary steps needed to be taken for sustainability. On the occasion HOD Botany Mr Siraj Yousuf Parray gave a detailed overview of the environmental problems and the menace of plastic pollution which is the theme of this year (Planet VS Plastics), which has created a global outcry. He further deliberated on the need to educate the people about the ill effects of plastics on the human health and the aquatic biota. On the occasion Prof Kawsar Ahmad (HOD) history talked about the importance of environmental education and its implementation to the stakeholders. At the end Prof Suhail Salam Bhat felt the need for having environmental cross talks with the stake holders to make the sustainable development a success. He also presented a vote of thanks.
