## AAB-E-RAWAAN News Letter

Issue II

2021

### From Principal's Desk

Gaining knowledge alone is not education but it is that what makes us better human being and so determines the future of the country. Mohandas Karamchand Gandhi has beautifully observed the meaning of education as, "The all-round drawing out of the best in the child and man: body, mind and spirit". Higher education institutions are carrying out various activities aimed at holistic development of the students. The students after their successful exit from such institutions have to face the challenges of the real world in the most effective manner. Here in this college besides providing quality education to the students, we are in the effort to bring out the best in our students. All the activities are organised here as a team work by the faculty to achieve this common goal. Our college provides a platform to its students to showcase their inborn talents. We also take utmost care in moulding our students as responsible global citizens. We would like to see them soar to new heights and tastes success in all their endeavours.

I appreciate the editor and co-editor for their efforts in completing this newsletter well in time.

To unearth the latent capacities of the stakeholders with a wish to prune and trim them for utilitarian motif.

That our stakeholders are prospectively benefitted.

- That our pass outs shall occupy a respectable niche in the society.
- That our ambassadors are seen serving in all shades of life.

## Editor' Note

It gives me immense pleasure and blissful feel to introduce the second issue of College Newsletter "Aab-E-Rawaan". My sincere thanks are due to our worthy Principal, Prof. Dilruba Rasool Hamdani for her great support and encouragement for the publication of this issue. Since the college is developing at a fast pace in all the sectors including academic pursuits, co-curricular and infrastructure development and for which teaching and non-teaching staff of the college are working very hard. It was very delightful experience to

compile and edit this issue of the Annual College Newsletter which is in your August hands. A newsletter is meant to be a window through which working of an institution is seen. Publication journey remained very exciting and interesting; many thing and events happened during the period under report include the curricular, co-curricular and NSS activities, faculty achievements, extension programs etc. and incorporate the coordination of the teaching and non-teaching staff as well as the students who played their role in the improvement of this institution. A visual revisit of all of the activities refreshes us though nostalgically with a sense of pride for being a part of this fast growing institute where balance is being maintained between academics, co-curricular and extension activities. Squeezing such a great odyssey in a few words is certainly a challenging task. First I tender my sincere apologies if any event has been overlooked despite best of efforts put in during sleepless nights. I would like to express my heartfelt gratitude to my colleagues for submitting the reports and records well in time and also to those who don't. I shall be grateful to our esteemed readers to ignore errors and omissions if any. Further suggestions, feedback and constructive criticism shall be appreciated.
